Education

Chandigarh University

Bachelor of Engineering in Computer Science

Aug. 2020 – Jul. 2024

Mohali, Punjab

Relevant Coursework

- Data Structures
- OOPs Concept
- Database Management
- Frontend Development
- Software Methodology
- React Js
- Operating System
- Algorithms Analysis

Experience

Bharat Intern

November 2023 – December 2023

Full Stack Web Development

Remote

- Assisted in development of the front end of a web application for browser using Html, Css, ReactJs.
- Worked with React components, props and hooks to implement routing in the app and allow users to navigate between different pages.
- Utilized react router as a development environment in order to visualize the website.

Projects

Exclsv.com | Html, Css, Javascript, ReactJs

October 2023

- Refined and implemented a robust front end system for an E-commerce platform using ReactJs, ensuring seamless browser experience.
- Implemented features such as product browsing, search, filtering, dark mode and shopping cart.
- Utilizing react components, props and hooks to create a user friendly shopping experience like dark mode.

Blogging App | Html, Css, Javascript, ReactJs

July 2023

- Developed a responsive and user-friendly application using ReactJs to create a interactive user experience.
- Collaborated with a team to implement the website, which included features such as User authentication and authorization, image uploading, blog post system and search functionality.
- Utilized React Router to implement routing in the app and allow users to navigate between different pages.
- Exhibited strong teamwork and collaboration skills by working effectively with other team members to complete the project on time.

Hospital Management System | Html, Css, Javascript

February 2023

- Designed a hospital website using ReactJs to simulate common functions such as user registration and login, user profile management, appointment scheduling and medical record management.
- Developed a deep understanding of hospital management system requirements and how to implement them using web technologies.

Technical Skills

Languages: C++, HTML, CSS, JavaScript, SQL

Developer Tools: VS Code, Postman, Git

Technologies/Frameworks: ReactJs, Tailwind CSS

Soft Skills: Problem Solving, Self Learning, Adaptability, Leadership, Communication, Team-Oriented

Achievements

- **AtCoder Toyota Programming contest 2023** - Ranked 3 among the 294 participants
- **Geeksforgeeks coding challenges** - Ranked 184 among the 16K participants
- Solved 500+ coding problems on [GeeksforGeeks](#), demonstrating strong problem-solving and analytical skills
- Solved 250+ coding problems on Coding Ninjas
- Achieved a 3-Star rating in problem solving on HackerRank

Certifications

- **C++ Programming** - [Saylor's Academy](#) - 2023
- **Object Oriented Programming in C++** - [Coding Ninjas](#) - 2023
- **JavaScript(Basics)** - [HackerRank](#) - 2023
- **Foundations of Project Management** - [Coursera](#) - 2022
